SECOVE ROADMAP

The **Roadmap** outlines the most important actions that need to be taken, to establish a network of COVEs in the sector of Sustainable Energy, such as *engaging with key stakeholders, partnerships and funding*.

It emphasizes the importance of **collaboration** and presents as a valuable resource for policy makers, educators and other relevant stakeholders interested in supporting the development of a skilled workforce in Sustainable Energy.

SECOVE
SUSTAINABLE ENERGY CENTRES OF VOCATIONAL EXCELLENCE

The **2nd Partner's meeting** took place on **July 2023**, in Porto, Portugal, and was attended by representatives of all partners organisations. Partner's focused on establishing a dialogue about pending project activities, such as the development of the **SECOVE Web portal** and the **SECOVE Platform**, as well as the **SECOVE Observatory**.

At the end, a discussion begun about the **next Project Meeting** in Bilbao, Spain and future tasks from all Work Package leaders.

Research on Gender gap - VET and Sustainable Energy sector

Earlier this year, a research study was conducted in the **Inclusiveness and the encouragement** of women studying and working in *technical professions*.

The study was carried out by SECOVE partners in **Italy, Spain, Greece, Slovakia and Portugal**.

Main aim this research was to *assess the inclusiveness of VET education in Sustainable Energy* and how SECOVE can help *promote and increase* such activities through the **COVEs** and the variety of **SECOVE tools** that are in development.

FORUM ON VOCATIONAL EXCELLENCE 2023

This year's **Forum on Vocational Excellence** took place on **25th and 26th of September, in Amsterdam**, the Netherlands.

It was jointly organised and hosted by the **Community of Practice on COVE's, Katapult** and **Tknika**, in cooperation with the **European Commission**.

During the Forum, various education and VET providers, government officials (from EU and partner countries), social companies and different European stakeholders gathered to **share their knowledge and best practices**, and take responsibility about the **skills acquisition** of the current workforce (green, digital, social and professional).
